

	OCCUPATIONAL HEALTH AND SAFETY (OH&S) POLICY		E.01.03
	VERSION 1	DATE: 06/03/2025	QUALITY AWARD

TERRAmēnsus GP, recognizing the vital importance of health and safety in the workplace, implements an effective system aimed at ensuring health and safety conditions across all workspaces. It applies systematic procedures that examine the "context" of occupational risks, taking into account hazards, improvement opportunities, as well as legal and other requirements.

The organization ensures the active participation of employees in occupational safety issues and aims for full compliance with current Greek and EU Legislation. To ensure these conditions, TERRAmēnsus GP is committed to continuously improving the OH&S System in all functions, covering all personnel and partners working for it.

The OH&S Policy focuses on:

- Facilitating the management of risks related to business activity.
- Organizing activities toward the continuous improvement of health and safety conditions.
- Controlling safety parameters and implementing a complete Safety & Accident Prevention and Emergency Management System.

TERRAmēnsus GP evaluates its performance through regular audits and inspections to achieve specific OH&S goals and objectives. The policy is communicated to all staff and stakeholders and is available to the public.

The company is committed to establishing the importance of prevention and compliance with OH&S conditions, inspired by the highest level of hierarchy and extending to all employees. Special care is taken for the continuous training and motivation of all personnel to acquire responsibility toward the company's commitments.

Scope of the Occupational Health and Safety Management System:

ENGINEERING ACTIVITIES AND RELATED TECHNICAL CONSULTING SERVICES

Finally, TERRAmēnsus GP promotes open dialogue and public information in a spirit of sincere and mutual respect regarding the company's practices and goals for health and safety.
